## National Terrorism Advisory System

# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Level 2	Normal Operations	Normal Operations

### CAL OES Regional Activities in Response to Statewide Warm-Up:

- The Cal OES Regions have reached out to their respective Operational Areas (OAs) and polled for their activities related to the heat forecast.
- Cal OES Regional Duty Officers continue to monitor the situation and provide updates as warranted.

### PG&E Emergency Operations Center Activation, June Heat Event,

- On 06/23/18 at 1042 hours, PG&E notified the California State Warning Center and advised that they activated their Emergency Operations Center in support of the June Heat Event.
  - Hours of operation: 1000 hours – until further notice.

### Cal OES COASTAL REGION

- [See Fire Activity Slides.](#)

### Cal OES INLAND REGION

- [See Fire Activity Slides.](#)

### Cal OES SOUTHERN REGION

- Nothing significant to report.

# **FIRE ACTIVITY**

Cal OES Fire Preparedness Levels		
National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 2	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 1

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

## **INLAND REGION**

### **Lane, Vegetation Fire, Tehama County**

Location: Hwy 36, Paynes Creek

Jurisdiction: State DPA, SRA, Tehama Glenn Unit

Per Cal OES Duty Officers and ICS-209, as of 06/24/18 at 0552 hours:

- 3,000 acres grass, brush and timber, 0% contained
- Expected containment: 07/04/18
- 200 residences threatened
- Very Large Air Tanker (VLAT) utilized
- Continued structure threat
- Threat to 500kV power lines
- Long range spotting
- FMAG in process
- Red flag warning for strong winds and low humidity in effect
- CAL FIRE IMT-2 is assigned

### **Deployments**

- 2 Cal OES Fire and Rescue Branch Assistant Chiefs
- 1 Cal OES Inland Region Emergency Services Coordinator assigned to the Lane and Stoll Fires

### **Evacuations**

- Evacuations for an estimated 300 homes in the communities of Ponderosa Sky Ranch, Payne's Creek and Plume Creek.

**Cal OES**  
GOVERNOR'S OFFICE  
OF EMERGENCY SERVICES

# **FIRE ACTIVITY**

## **INLAND REGION (Continued)**

### **Lane, Vegetation Fire, Tehama County (Continued)**

#### **Evacuation Center**

- Mineral Elementary School, 38355 Scenic Ave., Mineral, CA  
This shelter closed on 06/23/18.

#### **Critical Infrastructure**

- Per CUEA, KV lines are secure and there are no impacts to the grid.

### **Sierra, Vegetation Fire, Tehama County**

Location: Casale Rd. x Reading Rd., 5 miles south of Red Bluff

Jurisdiction: Local DPA, LRA, Tehama County Fire Department

Per Cal OES Duty Officers, as of 06/24/18 at 0857 hours:

- 170 acres grass, 60% contained
- Red flag warning for strong winds and low humidity in effect

### **Bascom, Vegetation Fire, Shasta County**

Location: Bascom Rd x Millville Rd, east of Redding

Jurisdiction: State DPA, SRA, Shasta Unit

Per Cal OES Duty Officers, as of 06/24/18 at 0857 hours:

- 328 acres grass and oak woodland, 75% contained
- Red flag warning for strong winds and low humidity in effect

### **Lion, Vegetation Fire, Madera County**

Location: Lion Point, in the Ansel Adams Wilderness Area

Jurisdiction: Federal DPA, FRA, Sierra NF/Inyo NF

- 26 acres, 0% contained
- ICT3
- Moderate fire behavior with wind driven runs, single tree torching, short range spotting

# **FIRE ACTIVITY**

## **INLAND REGION (Continued)**

### **Stoll, Vegetation Fire, Tehama County**

Location: Stoll Rd. x Baker Rd., west of Red Bluff

Jurisdiction: State DPA, SRA, Tehama Glenn Unit

Per Cal OES Duty Officers, as of 06/23/18 at 1925 hours:

- 500 acres grass and brush, 0% contained
- Continued structure threat
- Threats to 500kV powerlines
- Red Flag Warning in effect for strong north winds and low humidity
- One Cal OES Fire AC assigned

### **Deployments**

- 1 Cal OES Inland Region Emergency Services Coordinator assigned to the Lane and Stoll Fires

### **Evacuations**

- Estimated 500 homes evacuated along Baker Rd., Paskenta Rd., Wilder Rd., Stoll Rd. With forward progress of the fire stopped, some residents are being allowed to return to their homes.

### **Evacuation Center**

- Red Bluff Community Center, 1500 S Jackson, corner of Jackson and Kimble, Red Bluff, CA  
Midnight Population: 4

### **Road Closures**

- Baker at Walbridge, Paskenta at Walnut, Walnut at Live Oak

### **Critical Infrastructure**

- Power Outage- Red Bluff Area – Per the California Utilities Emergency Association (CUEA) as of 06/24/18 1021 hours:
  - 2,000 customers without power
  - PG&E is on-scene
  - PG&E is restoring outages behind the fire line, as the fire moves.
  - Estimated restoration: 06/24/18, 2300 hours
- Per CUEA, KV lines are secure and there are no impacts to the grid.

# **FIRE ACTIVITY**

## **COASTAL REGION**

### **Pawnee, Vegetation Fire, Lake County**

Location: Pawnee Rd. x New Long Valley Rd., 4 miles NE of Clear Lake Oaks

Jurisdiction: State DPA, SRA, Sonoma,-Lake-Napa Unit

Per Cal OES Duty Officers and ICS-209, as of 06/24/18 at 0620 hours:

- 1,500 acres grass and oak woodland, 0% contained
- Expected containment: 06/30/18
- 500 residences and 100 minor structures threatened
- 12 residences and 10 minor structures destroyed
- Continued threat to 230kV power lines
- Continued threat to critical fiber optic infrastructure
- Red flag warning for strong winds and low humidity in effect
- CAL FIRE IMT-3 has been activated

### **Activations:**

- Lake County Emergency Operations Center (EOC) is activated at Level III.

### **Deployments**

- 1 Cal OES Fire and Rescue Branch Assistant Chief
- 1 Cal OES Coastal Region Emergency Services Coordinator assigned as of 1100 hours

### **Fire Management Assistance Grant (FMAG)**

- On 06/23/18 at 2138 hours, a Fire Management Assistance Grant (FMAG) Request was received by Cal OES from the Incident.
  - The request is being forwarded to FEMA.

### **Evacuations**

- Mandatory Evacuation Order in effect for Spring Valley; 220 homes evacuated.

### **Evacuation Shelter**

- Lower Lake High School, 9430 Lake St., Lower Lake, CA
  - Midnight Population: 10
  - Animal shelter plan has been activated

# **FIRE ACTIVITY**

## **COASTAL REGION (Continued)**

### **Pawnee, Vegetation Fire, Lake County (Continued)**

#### **Road Closures**

New Long Valley Rd. is closed at Highway 20, Old Long Valley Rd. is closed at Highway 20

#### **Critical Infrastructure**

- Per CUEA as of 06/24/18 at 1024 hours, no reported cable outages at this time. The grid is currently stable. This fire is not impacting the grid.
- Per PG&E, 504 customers are without power.

## **SOUTHERN REGION**

### **Canyon, Vegetation Fire, Ventura County**

Location: North of Lake Piru

Jurisdiction: Federal DPA, FRA, Los Padres NF

Per Cal OES Duty Officers, as of 06/24/18 at 0857 hours:

- 130 acres grass and brush, 0% contained,
- Moderate rate of spread
- Structures threatened

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

\*\*\* High Risk for Strong Gusty Winds and Low Relative Humidity Sacramento Valley/Foothills, Eastern Half of Mid Coast, and Diablo Region of the Bay Area through MIDDAY \*\*\*

\*\*\* Low RH and Gusts to 35 mph Far East Side Late Monday \*\*\*

High pressure aloft will produce hot and dry weather with gusty N-NE/Offshore winds through midday today. Temperatures will be 10-15 degrees above normal and Relative Humidity in many areas will be 5-15%. The biggest impact will be in the Sacramento Valley and surrounding foothills, the eastern half of the Mid Coast, and the Diablo portion of the Bay Area through midday today. Peak gusts in the affected areas will be 35 mph, and locally stronger. Winds will diminish quickly between late morning and early afternoon.

A Pacific low pressure trough approaching the North Coast late today will cause an increasing onshore flow and begin to deepen the marine layer. SW-NW winds through the coastal mountain passes and the delta into the western Sacramento Valley will gust to 30 mph in wind-prone areas this evening, but Relative Humidity will also climb during this time.

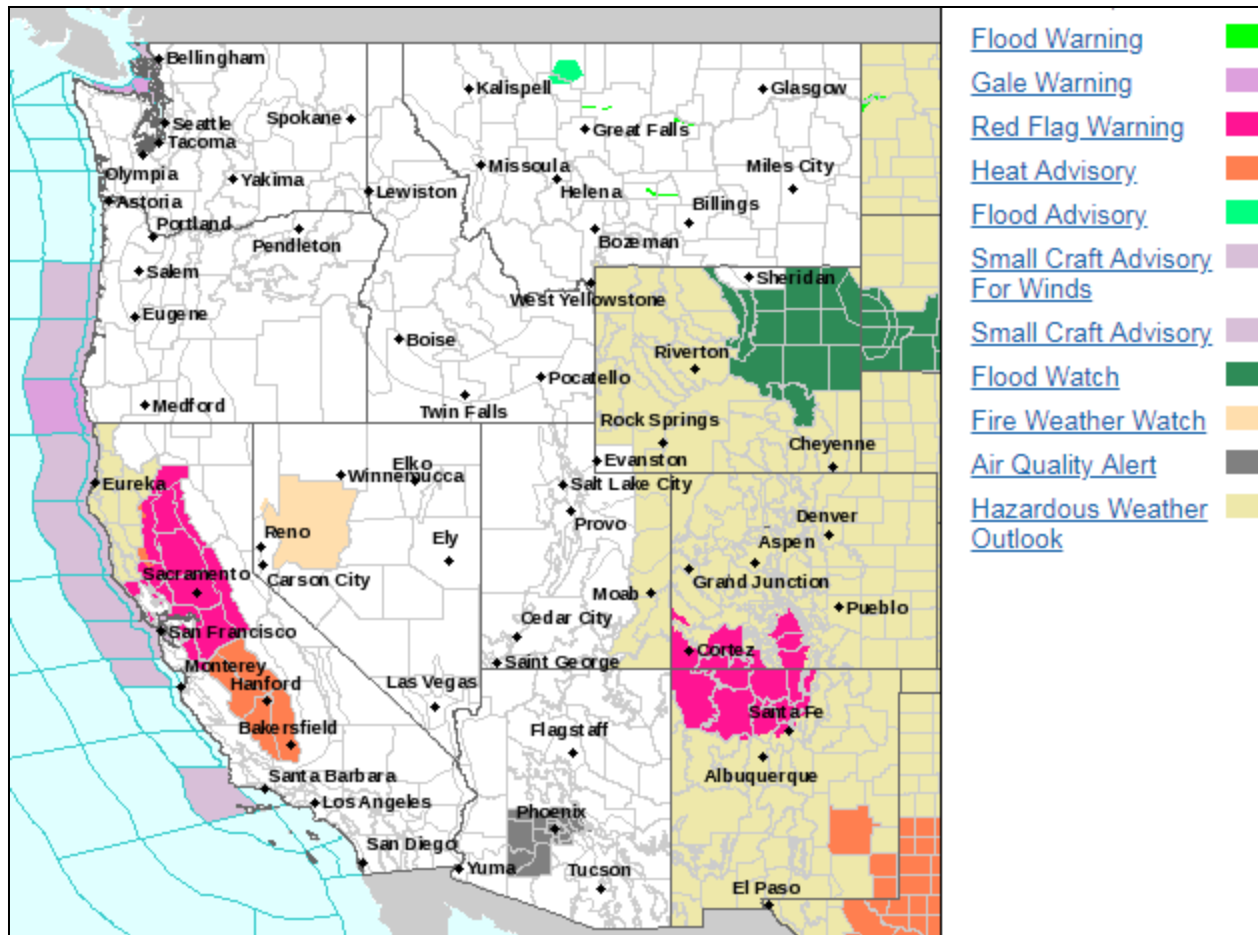

The trough will move over the region Monday, and much of next week will be spent under the influence of low pressure troughing of variable strength. On Monday afternoon the trough will be deep enough to produce S-SW wind gusts to 35 mph east of the Cascade-Sierra crest with RH 12-18%. Gusts will reach 25 mph Wednesday and possibly higher Thursday and Friday..

## **SOUTHERN CALIFORNIA**

High pressure off the Northern California Coast will push inland 06/24/18 and then become centered over the Desert Southwest Monday through Wednesday. This high pressure will bring very warm and dry conditions to areas above and inland from the marine layer influence. Maximum temperatures across the mountains will be in the upper 70s and 80s, with 90s to 102 in the San Joaquin Valley and its surrounding foothills. Coastal valley locations under the influence of the marine layer will be in the upper 70s and 80s today and then warm into the mid 80s to mid 90s Monday through Wednesday as the marine layer shrinks a bit. The entire region will cool Thursday into next weekend as a weak Pacific trough drops down the West Coast. This trough will also cause the marine layer to deepen once again. Westerly afternoon and evening winds across the desert passes will be 15 to 25 mph with gusts to 40 mph through Tuesday and then increase to 20 to 30 mph with gusts to 50 mph Wednesday into next weekend. Minimum humidity will be mainly in the single digits and teens above and away from the marine layer influence into next weekend.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2018-LAW-47569, 06/23/18, 2230 hours:** The IERECC reported an inReach SOS activation on Mount Whitney, Inyo County at coordinates: 36.56367, -118.278551, which plots near Trail Camp Pond. Per IERECC, a group of 6, including the R/O of the device, are hiking Mt Whitney. They reportedly reached the summit at 1500 hrs. today (06/23/18) and had begun the decent down. The group is not responding to messages being sent thru the device. LDO established direct contact with the Inyo SO SAR Coordinator and, based on the continuous movement of the device, coupled with the lack of response to message them, it was jointly decided to only monitor the movement and not launch a SAR response. LDO relayed each new set of coordinates throughout the evening and early morning (every 15-30 min), following the continuous decent of the device down the mountain. **Update: 06/24/18, 0210 hours,** the R/O notified IERCC that it was an accidental activation. **Mission Closed**
- **2018-LAW-47553, 06/23/18, 1543 hours:** The IERCC reported a SPOT SOS activation in Sequoia National Park at Coordinates: 36° 36' 13"N, 118° 39' 58" W, which plots near Pear Lake south of Marble Fork, Kaweah River. The emergency contact advised that the R/O is a 75 yr old male with breathing issues, hiking with his 44 yr old son. The pair began their hike Thursday morning at Lodge Pool and was scheduled to conclude Sunday, 06/24/18. While being briefed by IERCC, they received an inReach device activation in the same area. The R/O of the inReach device messaged "man fell by Pear Lake, send help". The IERCC confirmed it was the same incident. LDO briefed Sequoia Kings Canyon (SKC) NP Dispatch. Update: 1841 hrs., The SKCNP IC advised the helo just arrived on scene and would be flying the injured man out. IERCC notified. **Update: 2020 hours,** Per SKCNP IC, the R/O was airlifted to Kaweah Hospital with a head laceration and other non specified injuries. His son is hiking out under his own power. **Mission Closed**
- **2018-LAW-47539, 06/23/18, 0949 hours:** The Siskiyou County Sheriff's Office (SCSO) requested a helicopter for a rescue of an injured hiker on Mt. Shasta at 11K' elevation. The CHP was unable to fly due to sustained 20-30 mph winds. LDO coordinated with the CNG/JOC who accepted the mission. **Update: 1546 hours,** SCSO confirmed the injured hiker was located and airlifted off the mountain to a local hospital by CNG. **Mission Closed**
- 

# Cal OES MISSION TASKING

## Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
- **2018-FIRE-47403:** California National Guard 95th Civil Support Team (2 team member) assisting Stockton Fire Department with hazmat material identification. Mormon Slough, Stockton, San Joaquin County (Coordinating)
